

Crafty Cards Synopsis

Crafty Cards is a fun design and make activity suitable for primary school children of all ages. Children are put in to teams to become card manufacturing companies for the session and have to work together as a team to design and create their cards using a variety of craft materials.

Children develop their numeracy and literacy skills as they have to buy resources from the 'shop' completing a basic account sheet and also have to come up with a poem/verse for inside their card.

Towards the end of the activity, the teams prepare a presentation to pitch their companies and their cards to a panel of judges. Certificates are then awarded for teams winning various categories.
